- Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

Section 8 – Other Events

Item 8.01 Other Events.

On June 1, 2015, Exelon Corporation (Exelon) and Exelon Generation Company LLC (Generation) concluded that the proposed Low Carbon Portfolio Standard (LCPS) legislation would not be enacted by the Illinois General Assembly during the current legislative session, even though the session has been extended. Exelon and Generation intend to continue their dialogue with Illinois policymakers regarding policy reforms which would better recognize the full value that Generation's nuclear plants provide for Illinois. Exelon and Generation will also continue to evaluate the current and expected economics of each of Generation's Illinois nuclear plants. In September, Generation has an obligation to inform PJM Interconnection LLC (PJM), the organization which administers capacity auctions, if any of its plants in the PJM region will not be participating in the May 2016 PJM capacity auction. In December, Generation must inform the Midcontinent Independent System Operator (MISO) if the Clinton plant will not be in operation during the next MISO resource adequacy planning year that begins June 1, 2016. Exelon and Generation have not made any decisions regarding potential plant closures at this time.
