Cautionary Statements Regarding Forward-Looking Information

This presentation contains certain written and oral forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 that are subject to risks and uncertainties including among others those related to the expected or potential impact of the novel coronavirus (COVID-19) pandemic, and the related responses of various governments and regulatory bodies, our customers, and the company, on our business, financial condition and results of operations; any such forward-looking statements, whether concerning the COVID-19 pandemic or otherwise, involve risks, assumptions and uncertainties. Words such as “could,” “may,” “expects,” “anticipates,” “will,” “targets,” “goals,” “projects,” “intends,” “plans,” “believes,” “seeks,” “estimates,” “predicts,” and variations on such words, and similar expressions that reflect our current views with respect to future events and operational, economic and financial performance, are intended to identify such forward-looking statements.

The factors that could cause actual results to differ materially from the forward-looking statements made by Exelon Corporation, Exelon Generation Company, LLC, Commonwealth Edison Company, PECO Energy Company, Baltimore Gas and Electric Company, Pepco Holdings LLC, Potomac Electric Power Company, Delmarva Power & Light Company, and Atlantic City Electric Company (Registrants) include those factors discussed herein, as well as the items discussed in (1) the Registrants’ 2019 Annual Report on Form 10-K in (a) Part I, ITEM 1A. Risk Factors, (b) Part II, ITEM 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations and (c) Part II, ITEM 8. Financial Statements and Supplementary Data: Note 18, Commitments and Contingencies; (2) the Registrants’ Second Quarter 2020 Quarterly Report on Form 10-Q (to be filed on August 4, 2020) in (a) Part II, ITEM 1A. Risk Factors; (b) Part I, ITEM 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations and (c) Part I, ITEM 1. Financial Statements: Note 14, Commitments and Contingencies; and (3) other factors discussed in filings with the SEC by the Registrants.

Investors are cautioned not to place undue reliance on these forward-looking statements, whether written or oral, which apply only as of the date of this presentation. None of the Registrants undertakes any obligation to publicly release any revision to its forward-looking statements to reflect events or circumstances after the date of this presentation.

Non-GAAP Financial Measures

Exelon reports its financial results in accordance with accounting principles generally accepted in the United States (GAAP). Exelon supplements the reporting of financial information determined in accordance with GAAP with certain non-GAAP financial measures, including:

- **Adjusted operating earnings** exclude certain costs, expenses, gains and losses and other specified items, including mark-to-market adjustments from economic hedging activities, unrealized gains and losses from nuclear decommissioning trust fund investments, asset impairments, certain amounts associated with plant retirements and divestitures, costs related to cost management programs, asset retirement obligations and other items as set forth in the reconciliation in the Appendix
- **Adjusted operating and maintenance expense** excludes regulatory operating and maintenance costs for the utility businesses and direct cost of sales for certain Constellation and Power businesses, decommissioning costs that do not affect profit and loss, the impact from operating and maintenance expense related to variable interest entities at Generation, EDF's ownership of O&M expenses, and other items as set forth in the reconciliation in the Appendix
- **Total gross margin** is defined as operating revenues less purchased power and fuel expense, excluding revenue related to decommissioning, gross receipts tax, JExel Nuclear JV, variable interest entities, and net of direct cost of sales for certain Constellation and Power businesses
- **Adjusted cash flow from operations** primarily includes net cash flows from operating activities and net cash flows from investing activities excluding capital expenditures, net merger and acquisitions, and equity investments
- **Free cash flow** primarily includes net cash flows from operating activities and net cash flows from investing activities excluding certain capital expenditures, net merger and acquisitions, and equity investments
- **Operating ROE** is calculated using operating net income divided by average equity for the period. The operating income reflects all lines of business for the utility business (Electric Distribution, Gas Distribution, Transmission).
- **EBITDA** is defined as earnings before interest, taxes, depreciation and amortization. Includes nuclear fuel amortization expense.
- **Revenue net of purchased power and fuel expense** is calculated as the GAAP measure of operating revenue less the GAAP measure of purchased power and fuel expense

Due to the forward-looking nature of some forecasted non-GAAP measures, information to reconcile the forecasted adjusted (non-GAAP) measures to the most directly comparable GAAP measure may not be currently available, as management is unable to project all of these items for future periods

Non-GAAP Financial Measures Continued

This information is intended to enhance an investor's overall understanding of period over period financial results and provide an indication of Exelon's baseline operating performance by excluding items that are considered by management to be not directly related to the ongoing operations of the business. In addition, this information is among the primary indicators management uses as a basis for evaluating performance, allocating resources, setting incentive compensation targets and planning and forecasting of future periods.

These non-GAAP financial measures are not a presentation defined under GAAP and may not be comparable to other companies' presentations. Exelon has provided these non-GAAP financial measures as supplemental information and in addition to the financial measures that are calculated and presented in accordance with GAAP. These non-GAAP measures should not be deemed more useful than, a substitute for, or an alternative to the most comparable GAAP measures provided in the materials presented.

Non-GAAP financial measures are identified by the phrase "non-GAAP" or an asterisk (*). Reconciliations of these non-GAAP measures to the most comparable GAAP measures are provided in the appendices and attachments to this presentation, except for the reconciliation for total gross margin, which appears on slide 39 of this presentation.

The Exelon Value Proposition

- **Regulated Utility Growth** targeting utility EPS rising 6-8% annually from 2019-2023 and rate base growth of 7.3%, representing an expanding majority of earnings
- **ExGen's free cash generation** will support utility growth, ExGen debt reduction, and the external dividend
- **Optimizing ExGen value by:**
 - Seeking fair compensation for the zero-carbon attributes of our fleet;
 - Closing uneconomic plants;
 - Monetizing assets; and,
 - Maximizing the value of the fleet through our generation to load matching strategy
- **Strong balance sheet is a priority** with all businesses comfortably meeting investment grade credit metrics through the 2023 planning horizon
- **Capital allocation priorities targeting:**
 - Organic utility growth;
 - Return of capital to shareholders with 5% annual dividend growth through 2020⁽¹⁾; and,
 - Debt reduction

(1) Quarterly dividends are subject to declaration by the board of directors

2019 Accomplishments

Maintain industry leading operational excellence

- Best on record Customer Satisfaction at all utilities
- ComEd had its best performance ever in both CAIDI and SAIFI; PHI continued to improve its reliability scores in 2019, setting best on record results in SAIFI
- 2019 capacity factor of 95.7%⁽¹⁾ was the highest ever, supporting 155 TWHs of nuclear production and avoiding ~81M metric tonnes of carbon dioxide
- 79% customer renewal rate and 36% new customer win rate for Constellation's retail power business

Meet or exceed our financial commitments

- Delivered GAAP earnings of \$3.01 per share and adjusted (non-GAAP) operating earnings of \$3.22 per share
- Exelon Corp. and all of its subsidiaries received credit upgrades
- Committed to \$100M of additional cost reductions at ExGen on the Q3 2019 earnings call

Effectively deploy ~\$5.3B of 2019 utility capex

- Invested approximately \$5.5B to replace aging infrastructure and improve reliability for the benefit of customers

Advocate for policies to enable the utility of the future

- Maryland PSC approved alternative rate making allowing for multi-year rate plans
- Pepco DC filed multi-year rate plan with DC PSC
- Pennsylvania Senate passed SB596 setting state electrification goals

Advance PJM energy market price formation reforms

- Fast start approved by FERC
- Supported PJM-filed proposal to reform reserve market and scarcity rules

Preserve authority of states to enact state clean energy policies and seek fair compensation for zero-emitting nuclear plants

- U.S. Supreme Court upheld IL and NY ZEC programs; NJ implemented ZEC program
- Governor Wolf announced plans for Pennsylvania to join the Regional Greenhouse Gas Initiative

Grow dividend at 5% rate

- Increased the dividend to \$1.45 from \$1.38 per share

Continued commitment to corporate responsibility

- Exelon employees volunteered a record-breaking 250,790 hours and donated approximately \$12 million
- Exelon Foundation, Exelon's family of companies and our employees donated nearly \$52 million
- Exelon was recognized for its commitment to diversity by Forbes, DiversityInc, Human Rights Campaign and the Military Times
- Exelon's total diverse supply spend exceeded \$2.0B for the 3rd consecutive year
- Exelon named to Dow Jones Sustainability North America Index for 14th year in a row

(1) Excludes Salem and EDF's equity ownership share of the CENG Joint Venture. Statistics represent full year 2019 results.

2020 Business Priorities and Commitments

Maintain industry leading operational excellence

Meet or exceed our financial commitments

Effectively deploy ~\$6.5B of utility capex

Ensure timely recovery on investments to enable customer benefits

Support Enactment of Clean Energy Policies

Grow dividend at 5% rate

Continued commitment to corporate responsibility

COVID-19: Operational Excellence is Even More Critical

Maintaining our infrastructure is critical to ensuring hospitals, health care providers, grocery stores and medical and food production facilities can provide their services and goods

Exelon Utilities:

- Sustained first quartile reliability performance through April at each utility
- Restored more than **350,000** customers after March and April storms
- Successful, first ever virtual activation for mutual assistance at ComEd to help Exelon's Mid-Atlantic utilities
- 2020 capital plans on track
- Service levels remain high even with customer representatives working from home

Exelon Generation:

- Completed **7 of 8** spring nuclear outages, with 8th to be completed later this month; nearly all outages were shorter than planned
- Completed **26** planned outages at fossil and renewable sites
- **100%** capacity factor at non-outage nuclear plants in April
- Constellation and broader ExGen maintained continuity around critical control room and dispatch operations

COVID-19: Supporting our Customers and Communities

Suspending utility customer disconnections

- Extending our customer support policies, which include suspending service disconnections, waiving new late fees, and reconnecting customers who were previously disconnected
- Offering assistance programs and flexible payment arrangements to customers experiencing temporary or extended financial hardship

Supporting communities through charitable contributions

- Exelon Foundation, Exelon Corporation and our family of companies have contributed more than \$5.9 million to national and local relief organizations for immediate relief to communities impacted by COVID-19, including support with food, health and financial needs
- Accelerating charitable contributions to other organizations as needed
- Connecting employees interested in volunteer opportunities, including those that can be done from home, meeting the need for blood donations, and supporting local food banks

Using our unique skills and resources to help the community

- Each utility is inspecting circuits and equipment at hospitals, testing facilities, and medical manufacturing sites to ensure reliable service to these critical resources
- Helped repurpose local facilities into alternate care centers for COVID-19 patients and testing sites
- Provided ComEd's mobile bridge to help create a drive thru COVID-19 testing site for first responders in Illinois

Exelon's Continued Response to COVID-19

Safety and Well Being of Our Employees

- New pandemic-related policies and practices incorporated into Management Model (e.g., pandemic personal protective equipment (PPE), Fit for Work, and contact tracing)
- Piloting of temperature sensing, employee contact tracing, and hands-free door operational technology
- Developed Responsible Re-entry plan for phased re-entry into the workplace

Operational Excellence

- Created contingency plans to monitor system configuration, mitigate exposure to significant service interruptions and allow for rapid emergency response
- Despite the impacts of COVID-19 on operating protocols and storm exposure, all the operating companies achieved first quartile performance in both outage duration and frequency
- Best second quarter nuclear capacity factor in more than ten years

Our Customers and Communities

- Extended suspension of disconnects beyond June 1st
- Special/deferred payment arrangements will be offered to residential and low-income customers with down payments ranging from 0-25% and payment duration lasting from 12-24 months post moratoriums

Actively Managing the Challenge of COVID-19

\$250M in 2020 from Cost Savings

Reducing ExGen CapEx by \$125M

Seeking Recovery for COVID-19 Costs from Regulators

ExGen outlook is projected to be (\$0.10) per share from Q1 weather and from COVID-19 net of cost savings; Total ExGen free cash flow \$100M lower

Exelon Utilities outlook is projected to be (\$0.10) per share from ComEd ROE and Q1 weather and flat from COVID-19

Revising full year operating earnings guidance to \$2.80 - \$3.10 per share

- Despite record-setting storms that interrupted service in our jurisdictions, reliability performance was strong across the utilities:
 - ComEd and PECO delivered top decile CAIDI performance, while ComEd scored in the top decile in SAIFI
- Each utility continued to deliver on key customer operations metrics:
 - BGE, ComEd and PECO recorded top decile performance in Customer Satisfaction
 - ComEd and PHI achieved top decile performance in Abandon Rate
- BGE and PECO performed in top decile in Gas Odor Response
- BGE, Delmarva Power and Pepco named as a 2020 Most Trusted Utility Brand in Escalent’s Utility Trusted Brand & Customer Engagement™ Residential study

Utility Investments Lead to Customer Benefits

Over the last four years Exelon Utilities have invested **\$22 billion** in resilience, reliability and infrastructure improvements and plan to invest **\$26 billion** over the next four years. These investments have provided benefits to all of our 10 million utility customers:

Improving Customer Service: Each utility had its **best ever performance** in the Customer Satisfaction Index in 2019

Keeping Electricity Affordable: Residential rates in Baltimore, Chicago, Philadelphia and Washington D.C are **below the average** for the 20 largest cities and the national average

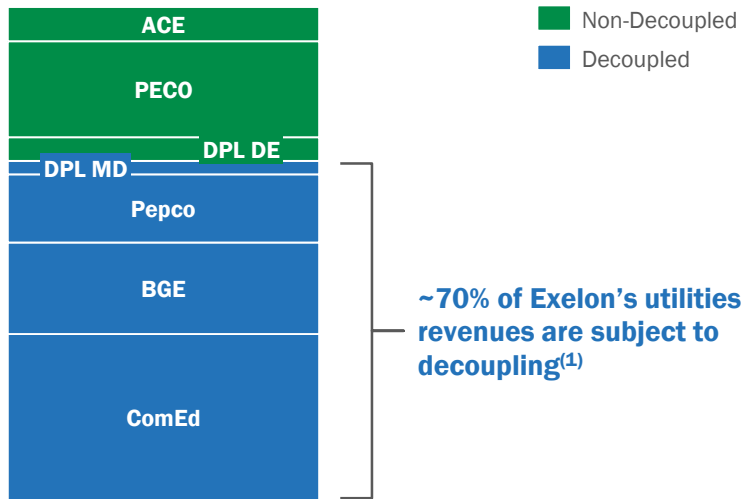

Enhancing Reliability: Frequency of outages has been reduced by **47%** at ComEd and **22%** at BGE since 2012. PHI has reduced frequency of outages by **30%** since the merger. Duration of outages has been reduced by **52%** at ComEd and **38%** at BGE since 2012.

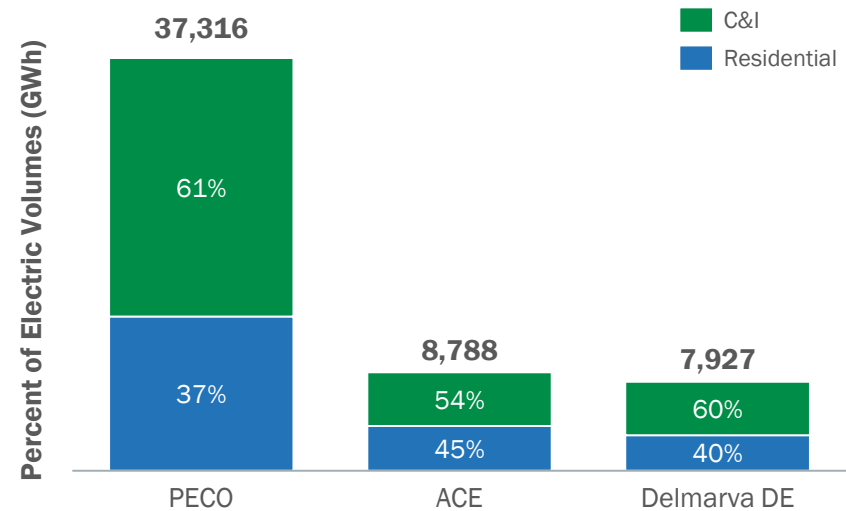

Modernizing Gas Infrastructure: Over the last two years BGE and PECO have replaced more than **200 miles** of outmoded cast iron and bare steel mains and nearly **30,000** metallic gas services

- (1) Revenue requirement includes changes in depreciation and amortization expense and other costs where applicable, which have no impact on pre-tax earnings
- (2) Pepco filed the multi-year plan enhanced proposal as an alternative to address the impacts of COVID-19. Reflects 3-year cumulative multi-year plan. Company proposed incremental revenue requirement increases of \$72.6M and \$63.3M with rates effective January 1, 2022 and January 1, 2023, respectively.
- (3) Requested revenue requirement excludes the transfer of \$4.2M of revenues from the Distribution System Improvement Charge (DSIC) capital tracker into base distribution rates. As permitted by Delaware law, Delmarva Power will implement full allowable rates on September 21, 2020, subject to refund.
- (4) Requested revenue requirement excludes the transfer of \$3.2M of revenues from the Distribution System Improvement Charge (DSIC) capital tracker into base distribution rates. As permitted by Delaware law, Delmarva Power will implement full allowable rates on October 6, 2020, subject to refund.
- (5) Reflects 3-year cumulative multi-year plan. Company proposed incremental revenue requirement increases of \$0.0M, \$0.0M and \$235.3M with rates effective January 1, 2021, January 1, 2022 and January 1, 2023, respectively. The proposed revenue requirement in 2023 reflects \$140.4M increase for electric and \$94.9M increase for gas. BGE's proposal is accomplished through a series of proforma revenue requirement adjustments to accelerate certain tax benefits, among other things.

Exelon: A history of clean, affordable, reliable energy

Exelon is Ideally Situated to Help Meet Climate Goals

Deliberately Built Clean Fleet

Exelon Generation is the largest zero-carbon generator – producing **1 out of every 9 zero-carbon MWhs** in the US – after executing on a strategy to divest or retire coal-fired generation and improve the output of zero-carbon nuclear fleet

- Between 2010 – 2017, retired or sold more than **2,000 MWs** of coal-fired generation
- Developed or bought **1,500 MWs** of renewable generation
- Increased output of nuclear fleet by more than **550 MWs**
- Invested in clean, efficient natural gas generation

Support Policies to Reduce GHG Emissions

**CLIMATE
LEADERSHIP
COUNCIL**

Exelon is a founding member of the Climate Leadership Council – to advocate for a carbon fee-and-dividend program

Support legislation and regulation to expand electric vehicle infrastructure at the state and federal level

Support 100% clean energy standards

Carbon Reduction Goals

Despite having the lowest carbon intensive generation, we have set a goal of an additional 15% reduction of GHG emissions from our internal operations

Enabling a Carbon Free Future

From generation to transmission to distribution, our sustainability strategy focuses on creating systems and policies that enable integrated clean energy solutions and connections for our customers

Portfolio Management Strategy

Strategic Policy Alignment

- Aligns hedging program with financial policies and financial outlook
 - Establish minimum hedge targets to meet financial objectives of the company (dividend, credit rating)
- Hedge enough commodity risk to meet future cash requirements under a stress scenario

Three-Year Ratable Hedging

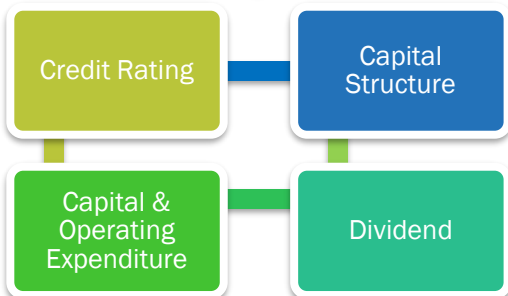

- Ensure stability in near-term cash flows and earnings
 - Disciplined approach to hedging
 - Tenor aligns with customer preferences and market liquidity
 - Multiple channels to market that allow us to maximize margins
 - Large open position in outer years to benefit from price upside

Bull / Bear Program

- Ability to exercise fundamental market views to create value within the ratable framework
 - Modified timing of hedges versus purely ratable
 - Cross-commodity hedging (heat rate positions, options, etc.)
 - Delivery locations, regional and zonal spread relationships

Align Hedging & Financials

Components of Gross Margin* Categories

Gross margin* linked to power production and sales

Open Gross Margin*

- Generation Gross Margin* at current market prices, including ancillary revenues, nuclear fuel amortization and fuels expense
- Power Purchase Agreement (PPA) Costs and Revenues
- Provided at a consolidated level for all regions (includes hedged gross margin* for South, West, New England and Canada⁽¹⁾)

Capacity and ZEC Revenues

- Expected capacity revenues for generation of electricity
- Expected revenues from Zero Emissions Credits (ZEC)

MtM of Hedges⁽²⁾

- Mark-to-Market (MtM) of power, capacity and ancillary hedges, including cross commodity, retail and wholesale load transactions
- Provided directly at a consolidated level for four major regions. Provided indirectly for each of the four major regions via Effective Realized Energy Price (EREP), reference price, hedge %, expected generation.

“Power” New Business

- Retail, Wholesale planned electric sales
- Portfolio Management new business
- Mid marketing new business

Margins move from new business to MtM of hedges over the course of the year as sales are executed⁽⁵⁾

Gross margin* from other business activities

“Non Power” Executed

- Retail, Wholesale executed gas sales
- Energy Efficiency⁽⁴⁾
- BGE Home⁽⁴⁾
- Distributed Solar

“Non Power” New Business

- Retail, Wholesale planned gas sales
- Energy Efficiency⁽⁴⁾
- BGE Home⁽⁴⁾
- Distributed Solar
- Portfolio Management / origination fuels new business
- Proprietary trading⁽³⁾

Margins move from “Non power new business” to “Non power executed” over the course of the year

- (1) Hedged gross margins* for South, West, New England & Canada region will be included with Open Gross Margin; no expected generation, hedge %, EREP or reference prices provided for this region
- (2) MtM of hedges provided directly for the four larger regions; MtM of hedges is not provided directly at the regional level but can be easily estimated using EREP, reference price and hedged MWh
- (3) Proprietary trading gross margins* will generally remain within “Non Power” New Business category and only move to “Non Power” Executed category upon management discretion
- (4) Gross margin* for these businesses are net of direct “cost of sales”
- (5) Margins for South, West, New England & Canada regions and optimization of fuel and PPA activities captured in Open Gross Margin*

(1) Expected generation is the volume of energy that best represents our commodity position in energy markets from owned or contracted for capacity based upon a simulated dispatch model that makes assumptions regarding future market conditions, which are calibrated to market quotes for power, fuel, load following products, and options. Expected generation assumes 14 refueling outages in 2020 and 13 in 2021 at Exelon-operated nuclear plants and Salem. Expected generation assumes capacity factors of 94.0% and 94.2% in 2020 and 2021, respectively at Exelon-operated nuclear plants, at ownership. These estimates of expected generation in 2021 do not represent guidance or a forecast of future results as Exelon has not completed its planning or optimization processes for those years.

(2) Excludes EDF's equity ownership share of CENG Joint Venture

(3) Percent of expected generation hedged is the amount of equivalent sales divided by expected generation. Includes all hedging products, such as wholesale and retail sales of power, options and swaps.

(4) Effective realized energy price is representative of an all-in hedged price, on a per MWh basis, at which expected generation has been hedged. It is developed by considering the energy revenues and costs associated with our hedges and by considering the fossil fuel that has been purchased to lock in margin. It excludes uranium costs, RPM capacity and ZEC revenues, but includes the mark-to-market value of capacity contracted at prices other than RPM clearing prices including our load obligations. It can be compared with the reference prices used to calculate open gross margin* in order to determine the mark-to-market value of Exelon Generation's energy hedges.

Projected GAAP to Operating Adjustments

- **Exelon's projected 2020 adjusted (non-GAAP) operating earnings excludes the earnings effects of the following:**
 - Mark-to-market adjustments from economic hedging activities;
 - Unrealized gains and losses from NDT funds to the extent not offset by contractual accounting as described in the notes to the consolidated financial statements;
 - Asset impairments;
 - Certain costs related to plant retirements;
 - Certain costs incurred to achieve cost management program savings;
 - Direct costs related to COVID-19;
 - Deferred Prosecution Agreement payments;
 - Other items not directly related to the ongoing operations of the business; and
 - Generation's noncontrolling interest related to CENG exclusion items.
